Home*Life*Style

—— We strongly believe that home is a feeling, life is an integral part of your home and style is a must.

Your windows and doors enhance your feeling of home by bringing light, energy, and comfort into your every day. It's your HomeLifeStyle, and it begins with a series of choices that make up the bigger picture.

And while home updates aren't always a choice, they always present a moment to let your imagination blossom and create something that feels completely you.

Casement Windows

— An architectural flourish to energise your home.

Casement windows are the most popular and versatile window style with hundreds of configurations and options to create the perfect window to suit your home.

Casement windows can be configured from a single sash to several sashes, depending on the size of the aperture. Openers can be added to one side, both sides, top or full frame to offer different degrees of ventilation.

“

With a multitude of sash sizes and opening styles, casement windows give you the freedom to shape your window around your style.

Your Style, Your Way

Bevelled

Angular lines give bevelled windows a clean, modern look.

Sculptured

Softer, rounder lines, lean towards a more traditional look.

Flush Windows

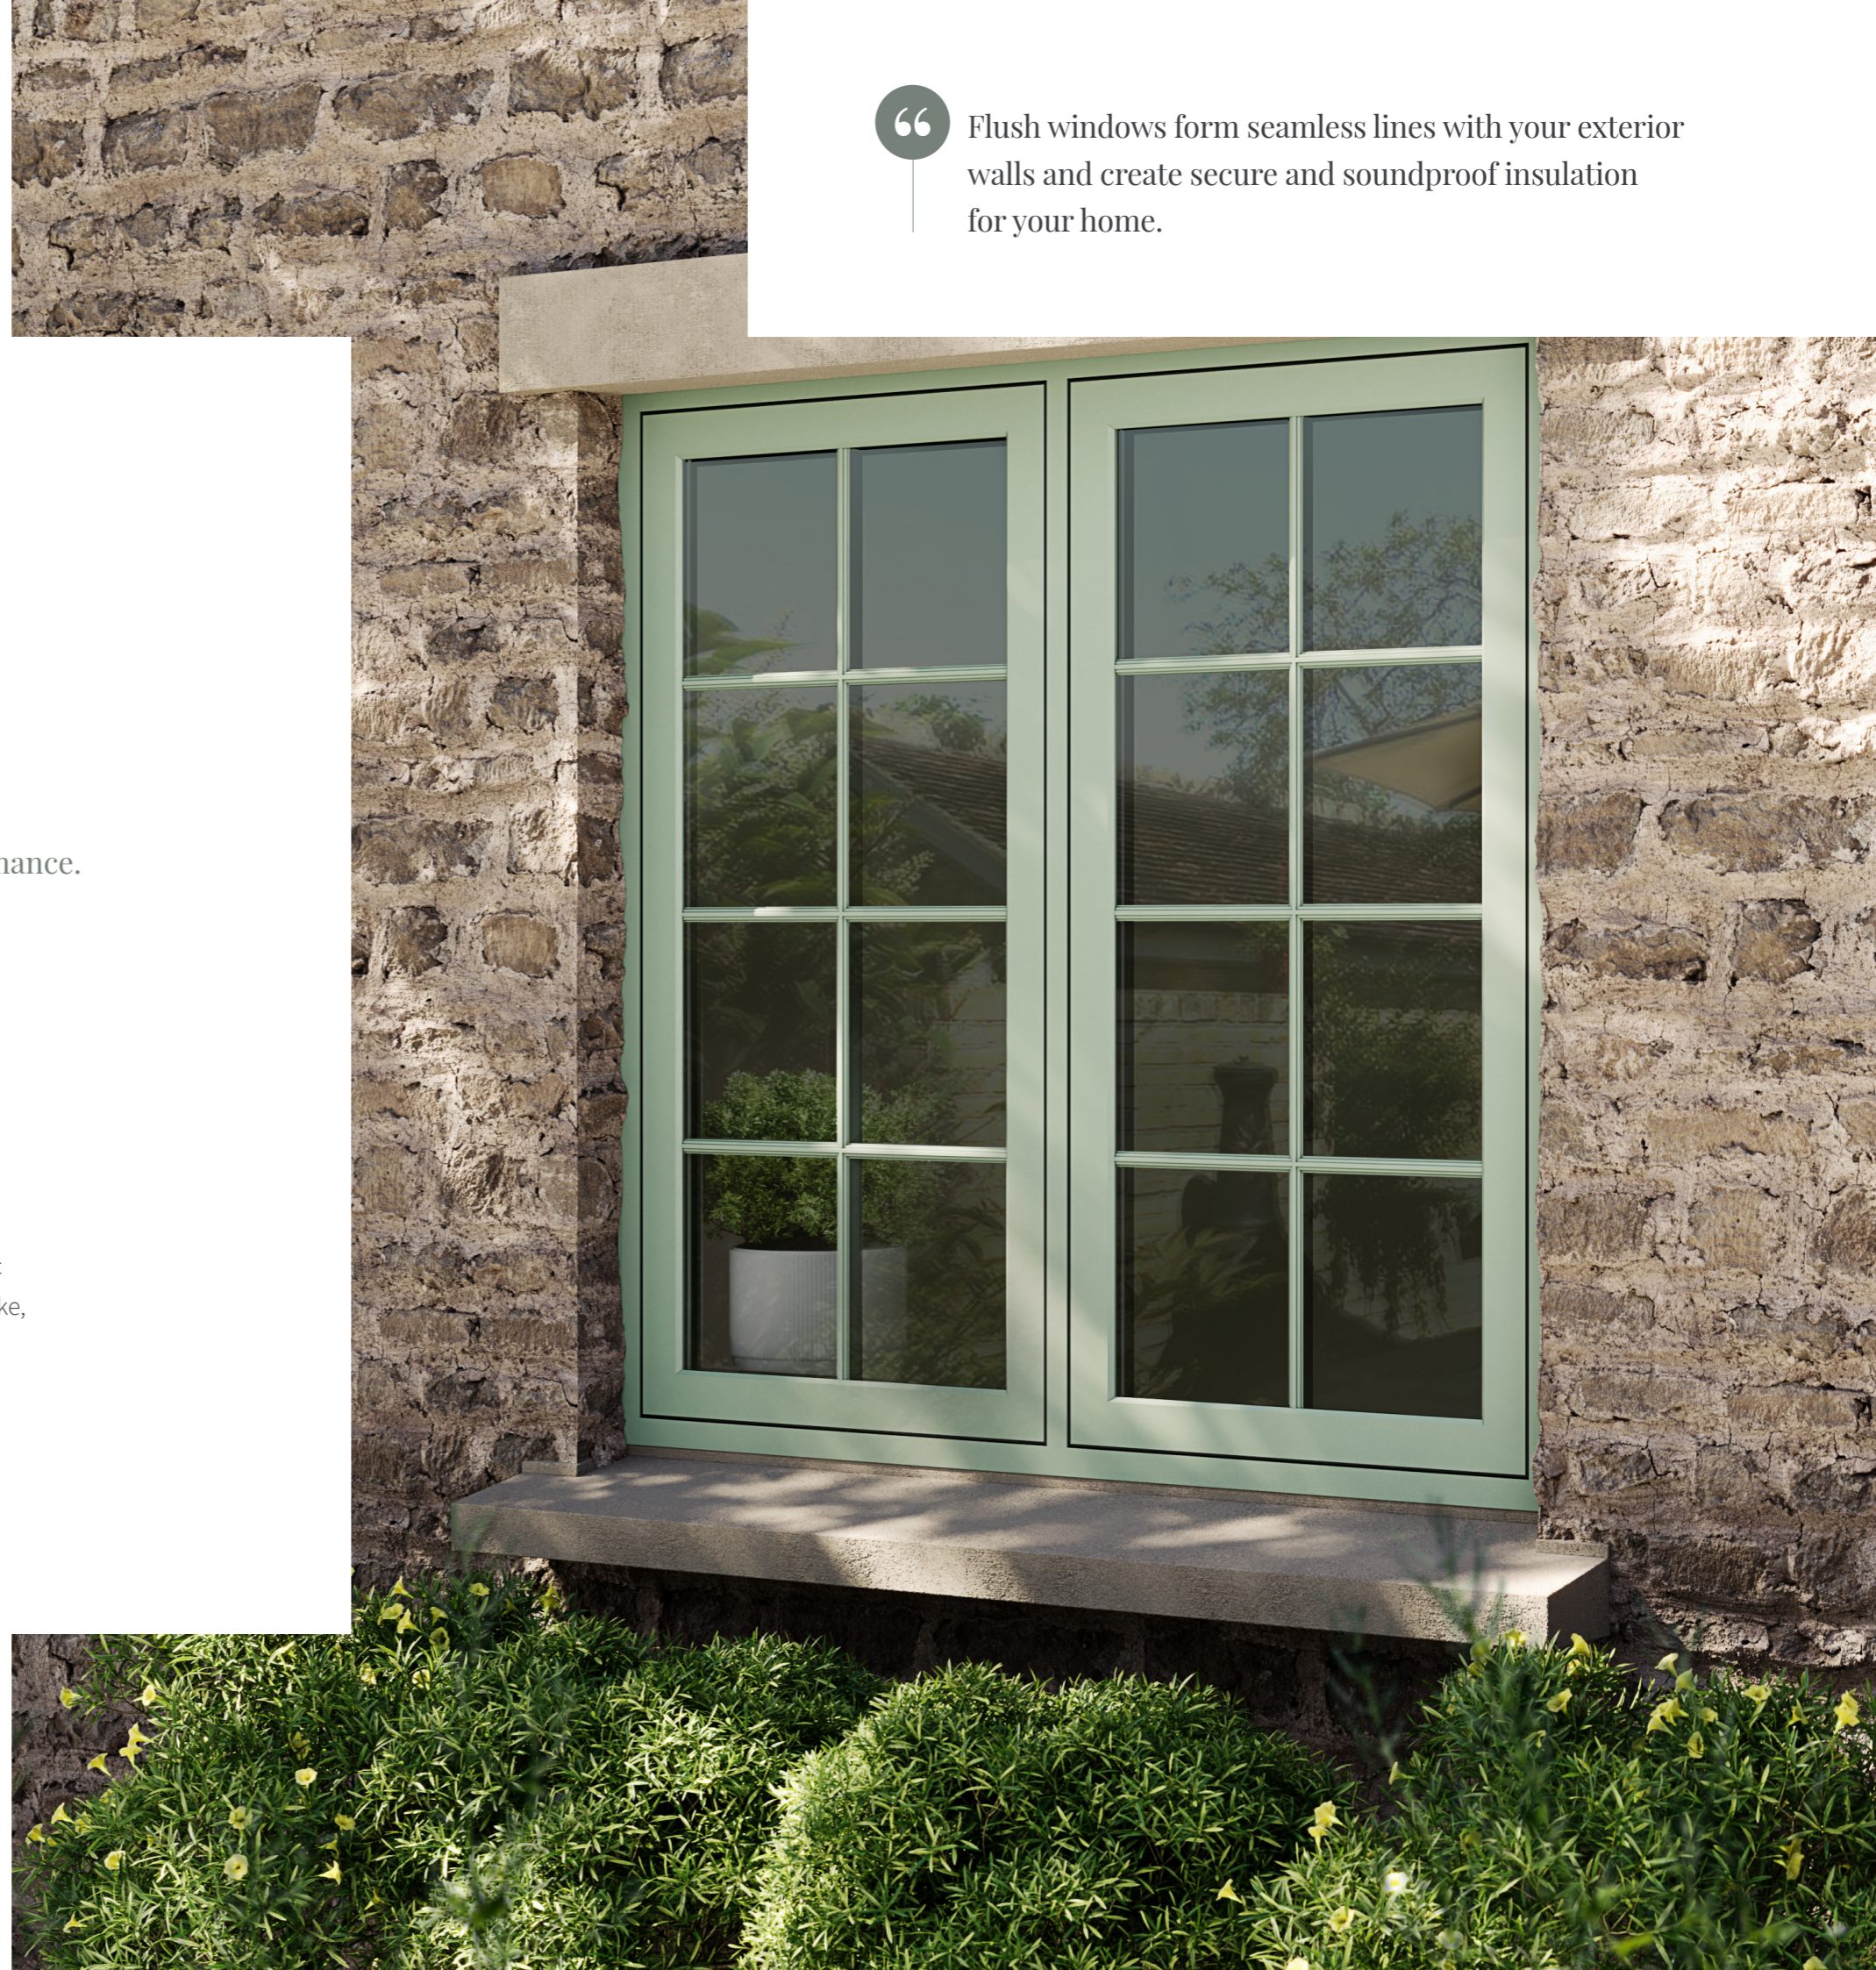

— Versatile style teamed with innovative performance.

Flush windows fuse the best of both worlds, evoking the elegance of traditional timber with the remarkable efficiency of modern uPVC materials. This is a style that demands zero compromise and works for every home.

Flush windows form seamless lines with your exterior walls and create secure and soundproof insulation for your home.

With a variety of colours and optional features, like heritage hardware and Georgian bars, it's an innovative and authentic choice for character properties and contemporary homes alike, making it the most flexible window on the market.

SASH WINDOWS

Your choice of 3 beautiful ranges

If like us, you believe the box sash style of window remains the most beautiful window of all time, you'll appreciate our elegant yet pioneering designs.

Faithfully reproducing traditional features like chamfered putty line sashes, staff beads, slim meeting rails, and butt joints, places Bygone windows in a league of their own. Upon closer inspection, we are sure they will exceed your expectations.

We understand that every home improver has a budget, that's why we've packaged three options for you. Whilst we apply the same care and dedication to each range, we have simplified some of the timber features on the Bygone Melody, making it the most affordable of our ranges. For those requiring every feature available, the Symphony comes with everything as standard, whilst Harmony offers a similar slim line appearance to Symphony, but with conventional double glazing.

We are certain that you will be very happy with the aesthetics, thermal efficiency, and peace of mind you will receive, regardless of which Bygone window you finally choose.

Tilt & Turn Windows

— Breathing versatility and security into your home.

Achieve the ultimate calming, comfortable atmosphere in your home with tilt and turn windows.

Tilt and turn windows provide the ideal solution for homes where window safety and window access may be an issue. Its four locking points deliver outstanding security, coupled with pleasingly clean lines for easy upkeep and exceptional style.

Your window, your way. With two methods of bringing a fresh breeze into your abode, the tilt and turn style allows you to experience maximum ventilation with minimum outside noise.

“

Tilt and turn windows offer outstanding security with four locking points, coupled with pleasingly clean lines for easy upkeep and exceptional style.

External colour:
Pebble Grey

Bay Windows

— Experience the world from a new perspective.

Expand your space and inject character into your home with the addition of a bay window. Flooding your room with natural light, bay windows exude real charm and create a strong visual feature in any room.

Excellent ventilation, varying styles and configurations, and the gift of extra space thanks to the larger internal window ledge area, add up to make a bay window the perfect way to frame a spectacular view.

Fully Reversible Windows

— 180 degrees of clarity.

Open up new levels of visibility, cleanliness, and style with fully reversible windows. The perfect choice for apartments or flats from the ground floor up.

This style is a sleek alternative to sliding or tilting windows. You'll encounter satisfying access to both sides of the window through a fully rotating panel designed to facilitate effortless cleaning and ease of use.

Enjoy the full advantage of your reversible windows as they shield you from external noise and fill your home with fresh air and sunlight.

Patio Doors

— Invite the outside in.

Upgrading your lifestyle has never felt more natural. Patio doors invite the outside in to create a new kind of lifestyle, bringing a fresher and lighter atmosphere to your home.

Sliding patio doors give you a greater sense of space and an uninterrupted view of nature. Their slim sight lines

allow you to see less frame and more of your outside space.

Setting the standard for insulation and ease of use, our patio doors glide open effortlessly, to optimise your view and elevate your sense of wellbeing.

French Doors

— Where beauty meets function.

A stylish way to welcome light in and create the feeling of more space in your home, French doors are an elegant threshold between your interior space and the great outdoors.

Framing your garden while protecting your home from the elements, French doors come in a range of colours and woodgrain finishes to exquisitely complement the style and type of home you inhabit.

And with the possibility of combining your French doors with sidelights and windows, this choice is equal parts functional and beautiful.

Colour:
Anthracite Grey Woodgrain

Bi-Fold Doors

— Synergy between spaces.

Create synergy between living and natural spaces with contemporary Bi-Fold doors.

Concertina folds flex and glide to add aesthetic and functional form to your home, making the Bi-Fold an ideal

opening to the outdoors. Discover new levels of versatility, durability, light, and access when you elevate your home with Bi-Fold doors.

16 Irresistible Colours

The possibilities are endless.

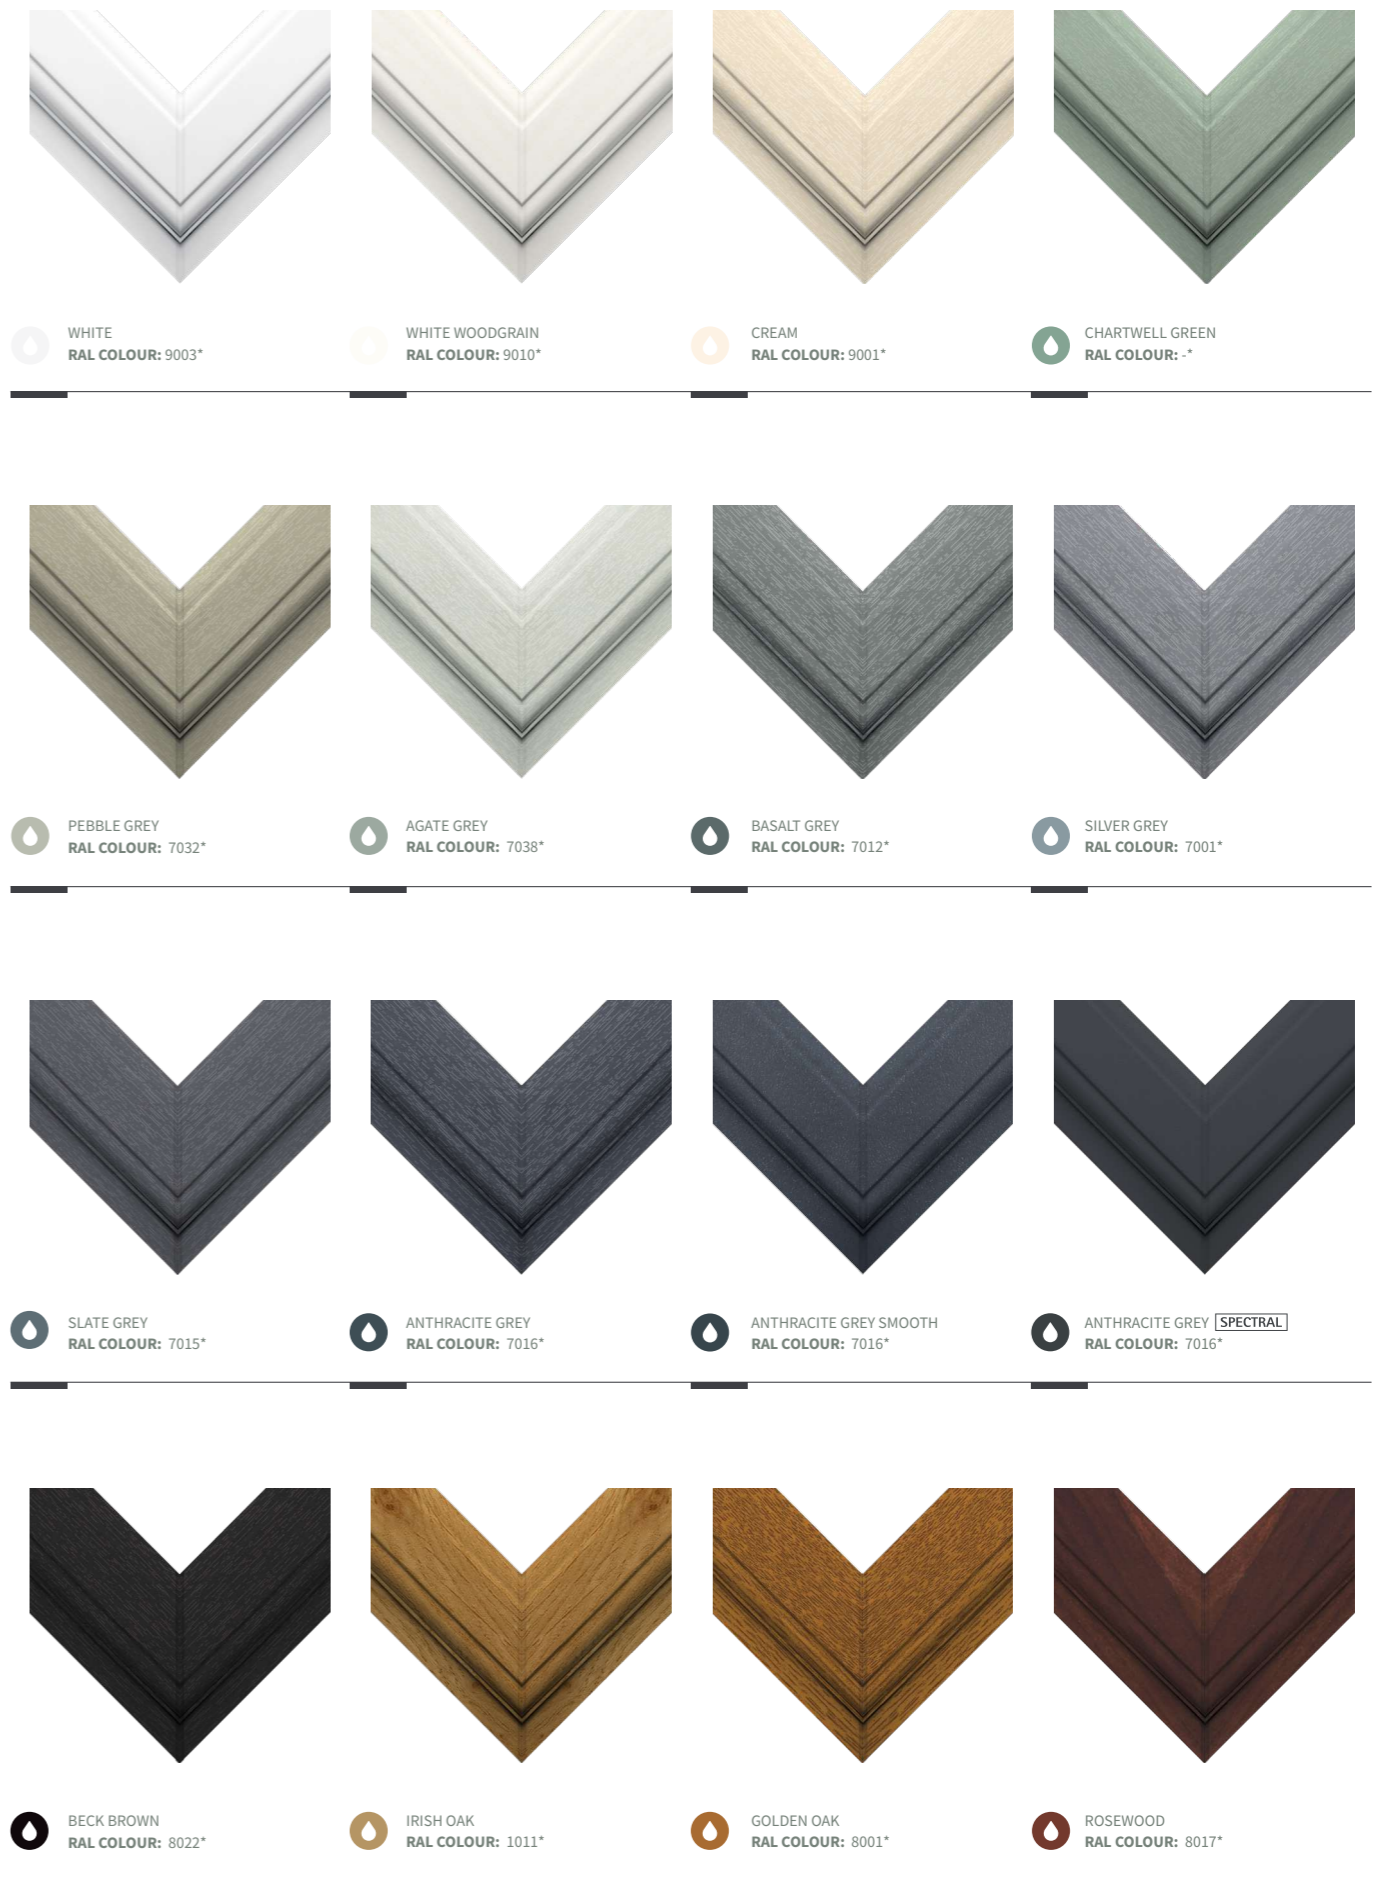

With 16 irresistible colours to choose from, including woodgrain and matt options, your windows and doors become another means to introduce personality and flair into your home.

Every colourway exudes a natural aesthetic to match or contrast every style, from classic right through to contemporary and industrial. Bold, neutral, earthy, modern - with such freedom of choice, which direction will you take?

Make a statement inside and out.

Admiring the colour of your windows shouldn't be left just for the passersby. Frame your room and enjoy colour inside too.

Finishing Touches

Individual taste, styles and preferences will influence not only the windows and doors you choose, but the finishing touches too. It's about creating a statement, enhancing kerb appeal, and bringing your personality to life through your home.

Whether you are looking for a contemporary feel or prefer a more traditional approach, there is a range of hardware for you. All are crafted in a variety of high-quality colour options that perfectly complement across both windows and doors.

i Ask your installer for more information.

Safe & Secure

For enhanced security and peace of mind, all VEKA systems meet PAS24 and the Secured by Design (SBD) standard.

PAS 24 is a standard of testing to measure the security performance of windows and doors to ensure they can resist a level of attack from an opportunist burglar. Secured by Design (SBD) is an initiative that organises accreditation for products on behalf of the Police. To be awarded an SBD Standard, the product must meet requirements to prevent crime to a 'Police Preferred Specification'.

Making Your Home More Energy Efficient

The windows and doors in your property are just one part of the puzzle when it comes to achieving an energy efficient home.

The energy performance of a window or door is influenced by a wide range of factors, so it's not easy to gauge by just looking at how it's made. Fortunately, there's a rating scheme to help you find the best one.

The energy efficiency of each window or door is categorised using an energy-rating scale from A++ to E. The complete product (frame and glass) is assessed to allow for heat loss, draughts and solar gain, giving a rating that indicates the overall impact of installing the product in your home.

U-Values

You may see a U-Value quoted on a product's energy label or promotional materials. This is a measure of how easily heat passes through the product and contributes to how efficient the product is. But this is not the complete measure of efficiency, and you need to take the overall energy label rating when considering the product's energy saving potential.

Sustainability

Not all plastic is bad. When it comes to windows and doors, uPVC is the most energy efficient amongst its peers. Plastic is an insulator unlike wood which is porous, whilst aluminium can cause thermal bridging and increased condensation. The window and door industry has made huge strides in the recycling and reuse of uPVC; it has given old frames a value, so they avoid simply being scrapped in the nearest skip.

A typical uPVC window frame lasts around 35 years, and it can then be recycled up to ten times, giving it a true lifespan of 350 years.* After that, it can then be made into other things that don't require such high quality uPVC. Imagine what your window could be one day.

VEKA plc is committed to creating sustainable systems and in 2022 recycled content accounted for 28% off all total uPVC extruded.
